

## Barrel Clamps

Barrel Clamp - A Barrel Clamp is actually a hydraulic or mechanical attachment intended for a forklift. It could be used in order to squeeze the object you wish to move utilizing the lift truck and is typically utilized for handling paper rolls, barrels, and kegs. Some types of barrel clamp accessories likewise have a rotate function. For instance, the rotate function enables a forklift operator to be able to insert a vertically stored paper inside the horizontal intake of a printing press.
