

## Meritor Parts

Meritor Parts - The Meritor Company is a premier global dealer built upon one hundred years of custom of quality and service. Meritor specializes in integrated systems along with various modules and parts to the original machinery manufacturers and aftermarket equipment in the industrial and transportation trades.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage within the worldwide operations. The company values all their customers and wishes to ensure their success while anticipating their diverse needs. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of experienced professionals.

Meritor strongly believes in just employing future focused employees. These top-caliber individuals can quickly adapt to changing environments and freely demonstrate the level of commitment and performance considered necessary in order to get results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all of their workers different chances for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, braking and suspension systems intended for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of all their worldwide engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum development at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 nations.

The supplier development network is specially situated to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each and every aspect of the trade. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within each and every region. The team is likewise included transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
