

Rockwell Part

Rockwell Part - AxleTech International is a premier supplier in the globe of specialty vehicle drive-train systems and parts together with off highway vehicles. The business prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere which supports the utmost integrity with empowered teamwork, along with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious business and offering a safe environment for their employees to work in. Also, they have applied many programs in the corporation to be able to help articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any comments or questions, since they are happy to share and promote this policy with a greater understanding of their efforts. They are really dedicated to improving and preserving the natural world. AxleTech has an EHS program which not just protects the environment but which even actively protects their staff and neighbors too.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles for both military and commercial applications. These applications range from construction equipment to airport ground support. AxleTech specifically designs axles to meet particular application demands. They have more than one thousand different axle specs within their present offering. With over 100+ years of experience and history, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The company is well known in several commercial and military applications. They provide complete axle assemblies used for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have further details that could be seen in the "ISAS" product collection.
