

TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, lift trucks play a major role for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the United States of America, forklifts gained popularity after WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread internationally.

Initially started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the industry. TCM began constructing lift truck manufacturing sites outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated expertise and technology, TCM has been proudly making various models of industrial forklifts, making their models recognizable all over the globe. With an energetic and strong employees, TCM has been able to constantly work towards becoming a future leading material handling company.
